Affiliate Member, American Veterinary Society of Animal Behavior, Colorado Veterinary Medical Association

PROFESSIONAL ACTIVITIES

Through my companies I engage in a number of different activities related to animal behavior. Animal Behavior Associates, Inc. is an animal behavior education and consulting business. I work with pet owners to help them resolve behavior problems with their pets such as aggression, destructiveness, house soiling and fearfulness. I produce and publish books, audio and video

tapes and computer CDs, as well as offering online articles and webinars to educate pet owners and pet professionals about animal behavior. I consult with attorneys concerning animal behavior and act as an expert witness in legal proceedings. I consult with government, non-profit and for-profit organizations and I lecture to pet owners and pet professional groups all over the world.

PROFESSIONAL CERTIFICATIONS

Certified Applied Animal Behaviorist, Animal Behavior Society, 1990 – Present

SERVICE ACTIVITIES

Volunteer Dog Obedience Instructor, Denver Dumb Friends League, 1991 – 1994

Member, Colorado Department of Agriculture Pet Animal Care and Facilities Advisory Board, 1994 – 2003.

Volunteer Advisor to the Denver Zoological Society concerning conservation and research issues, 1991 – 2000.

TEACHING EXPERIENCE

From 1973 to 1992 I taught university undergraduate and graduate courses in general psychology, experimental psychology, research methods, statistics, biopsychology, animal behavior, comparative psychology, and seminars in selected topics in animal behavior and applied animal behavior. Since 1992 I have taught or co-taught courses in animal behavior and applied animal behavior to veterinary students, veterinary technical students, animal control officers and other professional organizations.

RESEARCH INTERESTS

In the past, my research was concerned with the influence of the physical and social environment on behavior. It addressed not only the mechanisms producing those changes but also the consequences that those changes had for the survival and welfare of the animal as well as the fitness and evolution of the behavior. My present research interests are applied in nature. I am interested in human-animal interactions, the behavior of animals under confinement, animal welfare, promotion of behavioral wellness and therapies for animal behavior problems.

GRANTS AND CONTRACTS

Since 1976 I have received nine research grants worth over \$60,000. These included grants from The National Science Foundation, The National Institute of Mental Health, The Yerkes Regional Primate Research Center, The Snyder Foundation, The University of Georgia Research Foundation and The Parkes Foundation.

HONORS, AWARDS AND PRIZES

Appointed to the Honors Faculty, University of Georgia, May, 1976.

Received the PSI CHI Teaching Award for outstanding undergraduate teaching in the Department of Psychology, University of Georgia in 1986, 1988 and 1989.

CONSULTANTSHIPS

I have reviewed two books prior to publication for Duxbury Press, and I have reviewed numerous books and scholarly papers submitted to the journals Animal Behaviour, Science, Journal of Mammalogy, Journal of Comparative Psychology, American Journal of Primatology, Applied Animal Behaviour Science, Journal of Applied Animal Welfare Science, Zoo Biology and Journal of the American Veterinary Medical Association. I have also reviewed grant proposals from The National Science Foundation and The Delta Society.

OTHER PROFESSIONAL ACTIVITIES

Member of the Education Committee of the Animal Behavior Society from 1983 to 1988 and Chairperson from 1985-1988.

Member of the Education Committee of the American Society of Zoologists from 1987-1988.

Member of the Board of Professional Certification of the Animal Behavior Society 1990-1994 and 1998-2000.
